

Graphic Design: Interactive II – Spring 2017

Project 3: Responsive Splash Page

Due Date: Tuesday, April 11 at 7:30 pm Mountain Time.

Project Description

You are going to program a responsive splash page for Business & Community Lenders, a non-profit based in Austin, Texas. An Illustrator file with artwork will be provided to you.

This project will be collaborative. I will walk through the concepts of going from an Illustrator file to code, starting from the top of the design all the way to the bottom. If you follow along and keep your code organized, your grade will be... high.

Styling

The final splash page should closely resemble the Illustrator file. The splash page will need to be responsive and function well on mobile devices.

Grading

The grading focus of this project will be on:

- Using appropriate HTML tags for your content.
- Using CSS to style HTML content.
- Cleanliness and organization of HTML and CSS, especially code indentation.
- Making sure the splash page is responsive and looks good at all viewport sizes.

Turning In Your Work

Your project must be e-mailed in ZIP format to projects@utepinteractivecourse.com by Tuesday, April 11 at 7:30 pm Mountain Time. Late work will not be accepted. You will receive an e-mail confirmation from me when I receive your project files.
