

Graphic Design: Interactive II – Spring 2017

Project 1: Single Page “About Me” Website

Due Date: Wednesday, February 8 at 5:00 pm Mountain Time.

Project Description

You are going to develop a single page “About Me” website. You will be using HTML tags and CSS properties that we have learned so far.

The layout of an example single page website will be provided to you. It will be your responsibility to write the HTML and CSS to closely resemble the example single page website. Here are some helpful tips:

- The title tag of your page should be your full name.
- The main font used will be Helvetica.
- The header tags you will be using are h1, h2, and h3 tags.
- Each header tag should be styled in a different color.
- Use ordered lists and unordered lists where appropriate.
- Text links should be in a different color. When you hover over the text link, the background of the text link should be that same color.
- The font for your text within the table should be different than Helvetica.
- The background color of each table row should alternate.
- The second “favorites” container should be styled differently than the first container.

Grading

This project is not a design project. The grading focus of this project will be on:

- Using appropriate HTML tags for your content.
- Using CSS to style HTML content.
- Cleanliness and organization of HTML and CSS, especially code indentation.

Turning In Your Work

Your project must be e-mailed in ZIP format to projects@utepinteractivecourse.com by Wednesday, February 8 at 5:00 pm Mountain Time. Late work will not be accepted. You will receive an e-mail confirmation from me when I receive your project files.

Questions

Please use my UTEP e-mail address to ask any questions. bmsilverstein@utep.edu

Goals

- Tuesday, January 31 - You should be done with most of your HTML by the end of class.
- Thursday, February 2 - You should be done with all of your HTML and most of your CSS by the end of class.
- Tuesday, February 7 - Final changes and updates.
